I absolutely LOVE this car. The only reason I'm selling it is because my wife and I recently had our first child, and I got a new job that allows me to work from home. The car is in great condition, and the front tires are about 2 months old. Oil recently changed. And also, this thing is so much fun to drive, especially with the gear pedals on the steering wheel. Apple CarPlay compatible. If you have any questions, please feel free to reach out!
